

# FREEZIES FOR GROWNUPS!

Straight out of Ontario's first micro-distillery come the deeeelicious Black Fly coolers. The scrumptious flavours are cranberry/wild blueberry and black currant/wild blueberry. This is the bevvvy of choice for green and health conscious imbibers; the tasty treat is distributed in Canadian-made recyclable packaging, boasts low sugar content, real fruit juices and no artificial colours or flavours.

Even cooler than the coolers are the new grownup versions of the freezie. They're called vodka infused Spiked Ice. These yummy liquored-Popsicles come in three fruit-fusions: cranberry/blueberry, strawberry/rhubarb and black currant/blueberry. — ES
